IDEA 0349

Copy 3 of 3

20 JUN 1961

MEMORANDUM FOR: Chief, Communications Staff, DPD

SUBJECT: IDEALIST Equipment Status

1. A comprehensive study of IDEALIST assets versus required capability is being prepared by the Special Projects Branch. In order to establish an exact position it is necessary to obtain precise information on the type, status, and number of basic and component equipment on hand, available, and/or on order.

2. Programs for modification and modernization of such equipment, approved and/or proposed, also should be indicated. The current status of these programs with delivery or operational ready dates should be included.

3. It is requested that the above information be furnished to the IDEALIST Project Officer as soon as possible. Once the over-all status of IDEALIST assets are integrated to reflect a current capability, it is proposed that all changes be reflected at the time they are known. In order to make this possible, it is requested that you coordinate applicable information and actions relative to the IDEALIST Section, SPB, with this office.
